Marwadi University, Rajkot

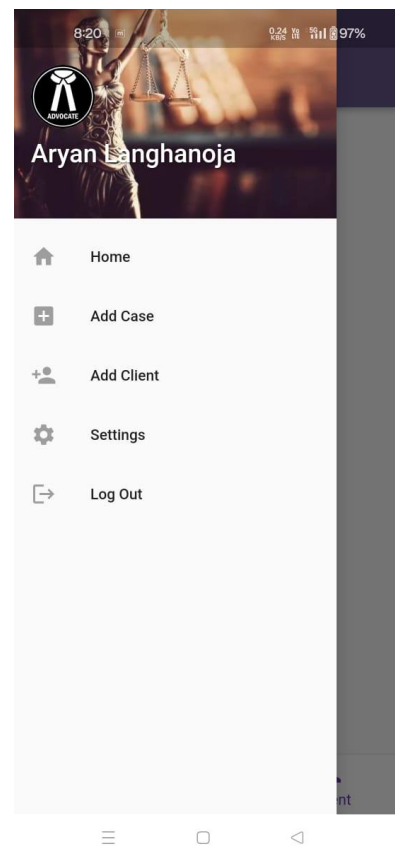

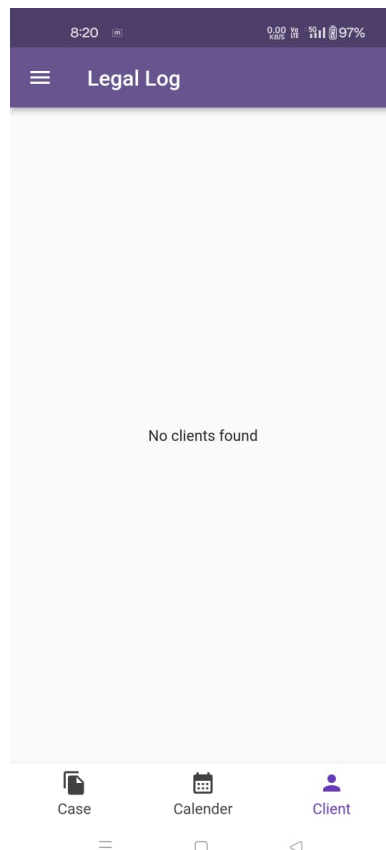

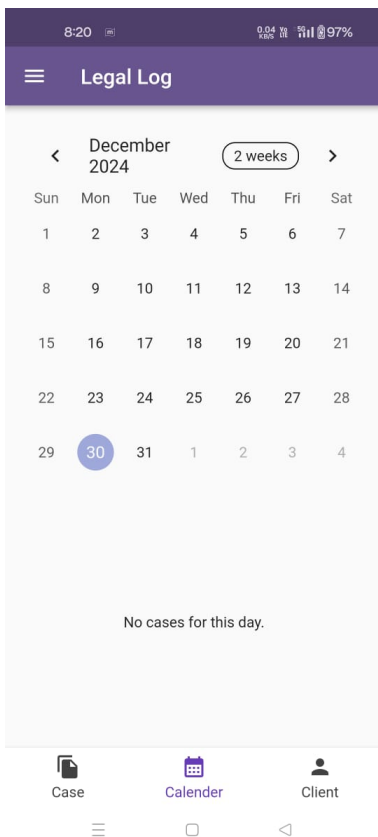

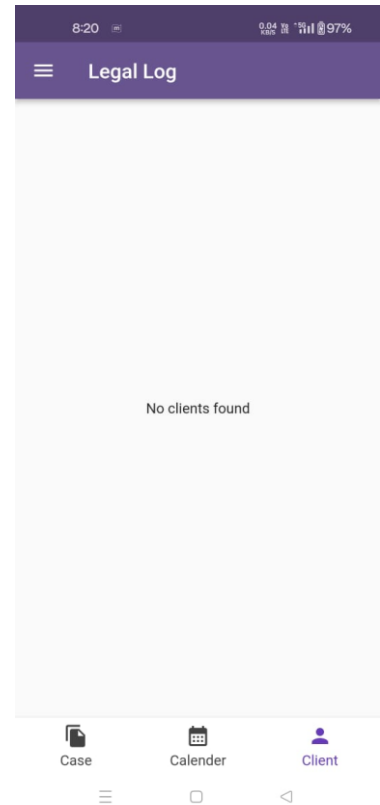

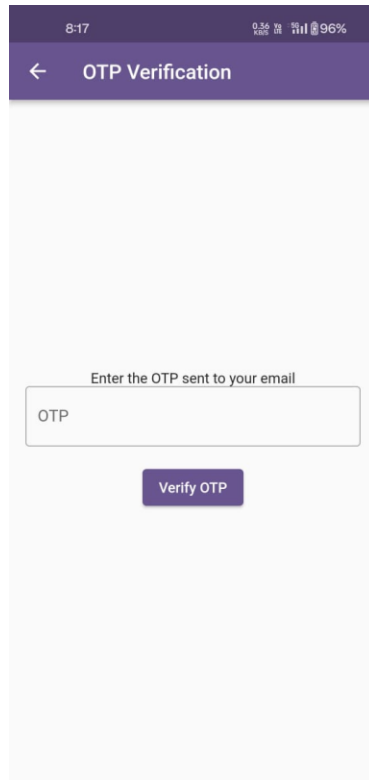

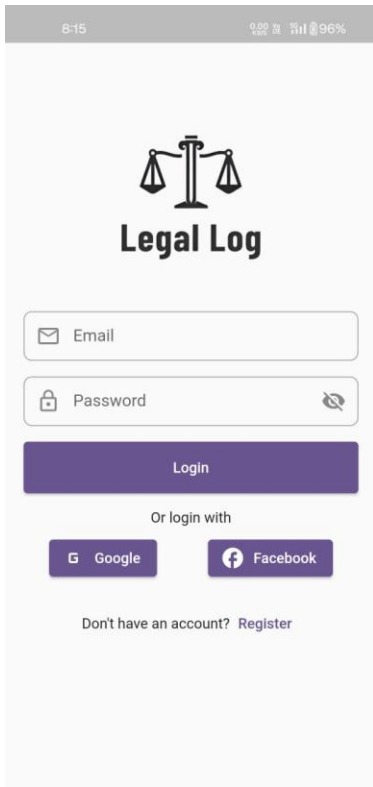

Abstract:

Legal professionals often face challenges in managing vast amounts of client information, case details, schedules, and legal documents efficiently. To address these challenges, we have developed **Legal Log**, a comprehensive app designed specifically for advocates and lawyers. Legal Log acts as a digital assistant, enabling users to seamlessly organize and access their professional data.

The app features an intuitive interface that allows advocates to create, update, and track their cases and clients effortlessly. Legal Log also supports storage and retrieval of legal documents, providing a centralized repository that eliminates the need for cumbersome physical diaries and paperwork. It also has the feature to prepare the report of whole case in a seconds in a few clicks.
